Vibe District: Houston's Ultimate Dance Party Experience

Hailing from the heart of Houston, **Vibe District** is an electrifying 5-piece variety band dedicated to one mission: keeping the dance floor packed all night long. Specializing in a high-energy mix that spans the 1960s through today's top hits, the band seamlessly blends funk, disco, RnB, pop, and rock into one unforgettable show. Whether it's a soulful Motown classic or a modern chart-topper, Vibe District delivers every note with tight harmonies and elite musicianship. More than just a band, Vibe District provides a full-scale production experience. Utilizing a state-of-the-art 8000-watt digital sound system and a fully synchronized four-zone lighting and video show, they bring stadium-level energy to weddings, corporate events, and festivals across Katy, Cypress, and Galveston. When Vibe District takes the stage, the rule is simple: **Ya Gotta Dance!** From the first beat to the final encore, they are the definitive soundtrack to a great night out.

Vibe District: Premier Event Entertainment & Production

Vibe District is Houston's premier 5-piece variety ensemble, specializing in sophisticated, high-energy entertainment for corporate galas, municipal events, and private functions. With a curated repertoire spanning six decades—from Motown and disco to contemporary Top 40—Vibe District offers the musical versatility required to engage diverse audiences and adapt to the evolving energy of any event.

Setting a new standard in event production, the band utilizes a state-of-the-art 8000-watt JBL digital sound system and fully electronic instrumentation. This allows for precision volume control, ensuring a full-frequency experience at any decibel level. Their performance is further enhanced by a sophisticated four-zone lighting system and integrated video production, creating a visually immersive atmosphere tailored to your venue. Serving Houston, Katy, and the surrounding regions, Vibe District combines elite musicianship with seamless technical execution to deliver an unparalleled professional entertainment solution.

1. Audio Requirements

Vibe District is a fully electronic ensemble, allowing for studio-quality sound and precise volume control.

- FOH System:** Band provides an 8,000-Watt JBL Digital Sound System suitable for audiences up to 500 people. For larger venues where House Sound is required, we can engage with a 3rd party production company for larger systems.
- Instrumentation:** All instruments (Drums, Keys, Guitar, Bass) are electronic/direct. No acoustic drums or loud guitar amplifiers are used on stage.
- Monitoring:** The band utilizes an **In-Ear Monitor (IEM) system**. We require zero floor wedges, keeping the stage aesthetic clean and reducing stage volume.

- Microphones:** Band provides all vocal microphones and stands.

2. Video & Visual Production

Our performance includes an integrated multi-media presentation.

- Monitors:** Band provides two (2) 75" high-definition monitors mounted on stage.
- Placement:** These are typically placed [e.g., in front of the drummer or at the stage corners].
- Content:** All video content is synchronized with the musical performance via our internal server.

3. Lighting & Effects

- System:** A four-zone intelligent lighting system including Pars, Moving Heads, Light Bars, and Lasers.
- Atmospherics:** Band utilizes Haze and Smoke machines to enhance lighting textures.
 - *Note for Corporate/Indoor Venues:* Please notify the band 48 hours in advance if the venue has sensitive smoke detection systems so we can disable these effects.

4. Power Requirements

To ensure a safe and flicker-free performance, we require the following dedicated circuits:

- Circuit A (Audio):** 1x 20-Amp dedicated circuit for the JBL Sound System.
- Circuit B (Backline/Video):** 1x 20-Amp circuit for instruments and 75" monitors.
- Circuit C (Lighting):** 1x 20-Amp circuit for the lighting rig and atmospherics.
- Total:** Minimum of three (3) independent 20-Amp circuits within 25 feet of the stage area.

5. Stage & Setup Requirements

- Minimum Stage Dimensions:** 20' Wide x 16' Deep (Flexible depending on the venue).
- Load-In:** Band requires access to the performance area at least **2.5 hours** prior to the start of the event for setup and soundcheck.
- Strike:** Band requires **1 hour** for teardown following the conclusion of the performance.

6. Hospitality (Standard)

- Secure, climate-controlled dressing room or "Green Room" for 5 performers.
- Bottled water and light refreshments (or meal vouchers for events exceeding 4 hours).
- Secure parking for seven (7) vehicles (e.g., 1 van/trailer and 5 cars).
